AM

“ I just want to say that I love you grandma and I will never forget you today I at school I had to write a story and the topic was what would you change in the world I wrote was to bring back my grandma to tell her how much I love her and I would do anything to bring her back the day she left that day I will forget she meant a lot to me and she was half of my heart that made me keep going but I told my self to stay strong for my mom because I know she need all the love she can get one other thing that I remember is the chore she would always told me to do was to take out the trash now that's the only thing I want to do just to remember her because but just want all my prayers to go out to my grandma who is now in a better place.
